

VISCO+

Comfort all year around

Eurofoam is now launching a new Visco quality, which is developed especially for Central and Northern European markets.

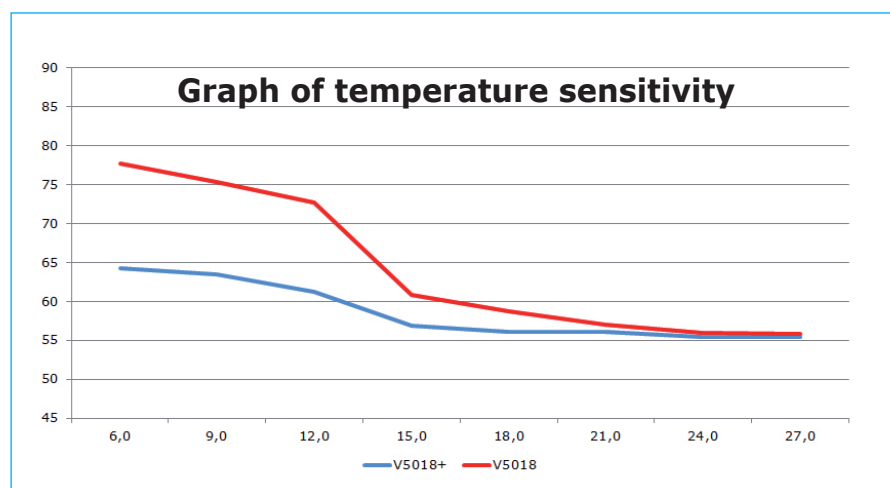

In winter time, VISCO+ is offering a plus in comfort to consumers but also a plus in productivity for foam converters!

Main advantages of VISCO+

- **VISCO+** blocks can be converted even down to 10° Celsius ambient temperature
- **VISCO+** mattresses and pillows ensure constant comfort for final consumers also in cold environment

The geometry of the blocks of VISCO+ has been optimized to ensure minimum waste and maximum productivity. All other properties of Visco foam remain unchanged.

Parameter	Unit	Test Method	Requirement
Density	kg/m ³	PN-EN ISO 845	43-50
Compression Resistance (CLD) 40%	kPa	PN-EN ISO 3386-1	1,2-2
Hardness (ILD) 40%	N	PN-ISO 243,9, method B	35-58
Resilience, maximum	%	PN-EN ISO 8307	10
Tensile strength, minimum	kPa	PN-EN ISO 1798	50
Elongation, minimum	%	PN-EN ISO 1798	100
Compression set 50% maximum	%	PN-EN ISO 1856	5
Recovery time	s	IOS-MAT-0076	>2
Basic colour			light yellow
